

AAR Wheels and Brakes Services

Aircraft wheels and brakes systems are subject to incredible stresses; withstanding heavy loads at each landing, resisting impact from runway debris and enduring the abrasive effects of sand and dust. Proper inspection, maintenance and repair are critical to ensure absolute safety and total reliability.

AAR Wheels and Brakes Services offers commercial, military and regional aviation customers a complete program of aircraft wheel and brake services including repair, rebuilding and inspection for all major aircraft types. Our high-tech testing and certification process ensures that hairline fractures and

other nonvisible stress defects are detected and repaired before they cause damage or affect safety. AAR provides fast turnaround from our modern 10,000 square foot facility, with an extensive inventory of long-lasting, original OEM parts. AAR's volume-buying capability allows us to offer the highest quality products at competitive prices.

Customer Benefits:

- AAR maintains a complete inventory of OEM parts on-hand for fast turnarounds.
- High-quality work delivered on time means improved safety and more landings for your aircraft.
- Exterior parts are cleaned and painted with durable coatings. Professional priming and painting extends part life by protecting metal parts from dings and wear caused by debris.
- Backed by AAR's global presence, our diverse product offering and professional services enable us to meet all your program needs.

Competitive Differentiators:

- **Experience** — AAR is experienced in all aspects of wheel and brake overhaul, rebuild, repair, customization and consulting, which means we can handle any size job.
- **Quality** — AAR maintains a complete inventory of OEM parts on-hand for faster turnaround. Quality OEM parts last longer and are manufactured to meet the highest standards.
- **Capability** — AAR performs critical testing and certification on all parts in accordance with FAA and EASA specifications. This testing can detect nonvisible defects and stress fractures helping avoid expensive repairs or dangerous system failure.
- **Value** — AAR's pricing is competitive because of our high volume, extensive inventory and efficient in-house operations. The highest quality parts and services result in longer lasting and more reliable wheels and brakes systems.
